25X1  
MEMORANDUM FOR: Assistant Administrative Officer-PCS/DCI

SUBJECT : Logging of Project Cables

REFERENCE :

[Redacted]

1. The logs maintained by the Chief, Project Signal Center contain cryptographic information and are also used to record the following information concerning the transmission and reception of all project cable traffic:

- a. The time of transmission or reception
- b. The transmission circuit number and message number
- c. The message group count
- d. The cable addressees or addressees

2. Therefore, while these logs are not considered to be suitable for cable registry and administrative logging purposes, they do provide a record of all Project cable traffic with the information specified in Paragraph 1 above.
